

N-Acetyl-L-Cysteine USP Powder

Product Characteristics

Appearance White crystals or crystalline powder

Profile

Specification

Identification	Meets USP
Assay	98.0 – 102.0%
Specific rotation	+21.0 to +27.0°
pH	2.0 to 2.8
Loss on drying	≤ 0.5%
Residue on ignition	≤ 0.2%
Heavy metals	≤ 10 ppm
Residual solvents	Meets USP

Storage

Store in tight containers, protected from light, moisture and heat.

Revision: 12/20/17
